Give
AMERICAN CANCER SOCIETY

The Two For One System

Employers need workers. Older Americans need jobs. The two for one system obliterates the problems of both parties.
Retired persons can work only a few hours each day and still qualify for social security benefits. In many cases, the monthly social security check is inadequate for maintenance, especially now when the cost of living has reached an all time high. The senior citizen has been a hard-working, proud, self-sufficient, tax-paying individual who is now caught in the turmoil of not being able to pay his way. He finds himself with too much unproductive time on his hands and he begins to feel inadequate as a contributing member of society.
In many areas, employers have been unable to find workers to fill their vacancies. Due to the personnel shortage, they are in the bind of not having the time to train new workers.
With the two for one system, the employer hires two retired workers. They take the place of one full-time worker, sharing the work day. These workers have years of experience, so they don't need training. The employer finds them grateful for the opportunity to work. They are reliable, efficient, and dedicated to doing a good job.
Many employers are using this system now and are very enthusiastic with the results

Nice Catch For Any Fisherman

This is a nice catch for any fisherman, but it is nothing new for W. D. Myrick of Spout Spring. He is shown above with a 6 1/4 pound and 3 1/4pound bass he caught at watershed near Pamplin.
Myrick wants to remind all local anglers not to forget to fish the watersheds and farm ponds in your backyard or the backyard of a friend.

Facts about the great interest rate war.
No matter what you may read about bank interest rates, keep this one clear fact in mind: **No bank anywhere is paying more than Fidelity.** And most are actually paying less than Fidelity on popular 2-year, automatically renewable 5 3/4% Certificates of Deposit. Here's why:
Fidelity compounds your interest **continuously**, not just daily. So the annual yield to you is more than 6%. It's 6.00315 to be exact.
So in the midst of all the current noise and confusion, just remember this one beautifully simple fact:
Our 6% annual yield on 5 3/4% Certificates of Deposit is bigger than their 6%.
And that **is** a fact!
